*Reasons for Allowance*

---

The following is an examiner's statement of reasons for allowance:

Claims 15 and 22 are allowed as amended over the arguments by the applicants filed 01/27/2005 over the prior art that neither teaches nor fairly suggestive of a composition for depositing an active material over a surface containing the specific fluoro compounds meeting the limitations of the instant claims by the applicants. Neither the IDS filed 03/24/2005 nor an updated search turned up new prior art over the instant claims.

An obvious double patenting has been noticed with the claims 1-2 and 6 of copending application with SI. No. 10/669404 claiming a solution containing organic active material per claims as amended on 03/28/2005. The instant application claiming the limitation of "a composition for depositing active material" is being allowed as the base application, because "If both applications are filed on the same day, the examiner should determine which application claims the base invention and which application claims the improvement (added limitations). The ODP rejection in the base application can be withdrawn without a terminal disclaimer, while the ODP rejection in the improvement application cannot be withdrawn without a terminal disclaimer" (MPEP 1490).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
